Dear All,

We've got our P2-wide M&A meeting on Thursday 2nd (1-2pm PST, 4-5 EST). We've taken the Bat and other Intervention M&A ideas from our P2 semi-annual mtg, and put in a lot of information on what data are available, what are needed, and who could potentially work on these.

It would be really good to go through these on the call and add names from your orgs, and check that we're thinking right on these issues.

Looking forward to the call
